Subject: Dimock - Preparing for Sampling

Rich,

Based upon the previous schedule with us sampling on 1/12, we had procured enough equipment and supplies to get us through the week. Due to short notice and not wanting to ship "everything" overnight which would be extremely expensive, we had only ordered enough supplies to get us through the week. Now that we will be mobilizing on 1/16 with 2 sample teams, we need to start looking into acquiring additional equipment. Once again to prevent overnight shipping charges I would like to start ordering the rest of the equipment now. But to ensure we order the correct amount of equipment and supplies, we need to ensure we know how many homes we will be sampling. Do you know how many homes we will be sampling? Additionally, I wanted to get your confirmation that we can order the rest of the equipment and supplies.

Thanks,

Suddha Graves
